Summary

With a successful track record in freelancing, I specialize in delivering tailored web solutions that exceed client expectations and drive business growth. As a passionate Web Developer, I am proficient in React, Django, Python, HTML, CSS, JavaScript, Tailwind CSS, and MySQL. Dedicated to developing intricate and robust solutions. I focus on developing intricate and robust solutions, emphasizing maintainable and efficient code to meet user needs and business goals. My persistent desire to learn and adapt to new technologies drives me to excel in full stack development, leveraging my expertise to stay at the forefront of the industry.

Experience

Full Stack Developer – Freelancer   Mar 2024 – Present
- Designed and developed responsive websites using React, HTML, CSS, JavaScript, and Tailwind CSS.
- Implemented RESTful APIs and integrated with backend services using Node.js and Django for robust backend solutions.
- Utilized MongoDB for NoSQL database needs, ensuring efficient data storage and retrieval for scalable applications.
- Collaborated with clients to understand their requirements and deliver tailored web solutions.

Skills

Programming Language: Python, JavaScript

Frameworks/Library: React, Next.JS, Django, Tailwind

SQL: MySQL

NoSQL: MongoDB

Web Development: HTML5, CSS3

Version Control: Git, GitHub

Projects

Orbit Website

Developed a modern, responsive web application using Next.js, Tailwind CSS, and Ant Design. The project aimed to create a Trading platform.
- Ensured the application was fully responsive and accessible across various devices and screen sizes using Tailwind's responsive utilities.
- Implemented functionality for users to swap between different E-Currencies seamlessly, enhancing the user experience.
- Enabled real-time coin value tracking and display, providing users with up-to-date market information.
- Applied robust error handling and validation mechanisms to ensure secure and reliable transactions.

MovieTos Website

As part of my web development endeavors, I conceptualized and implemented a responsive streaming platform called MovieTos. This project showcases my proficiency in front-end development using HTML, CSS and JavaScript.
- Utilized HTML to structure web content, ensuring accessibility and SEO optimization.
- Implemented CSS for styling and layout, incorporating modern design principles and responsive techniques.
- Employed JavaScript to add dynamic functionality, such as animations and interactive elements I created.

Education

Einstein College Of Arts and Sciences   Tirunelveli
Bachelor Of Science in Physics   Jun 2019 - May 2022
CGPA: **7.3** / 10
